Year 2: We are photographers

Gorringe Park Primary School

Subject Specific Vocabulary

Camera – a device used for taking pictures

Image – a digital picture made by a camera

Pixel – the small 'jigsaw pieces' that makes up images.

portfolio – a collection of images.

theme – a topic for a portfolio.

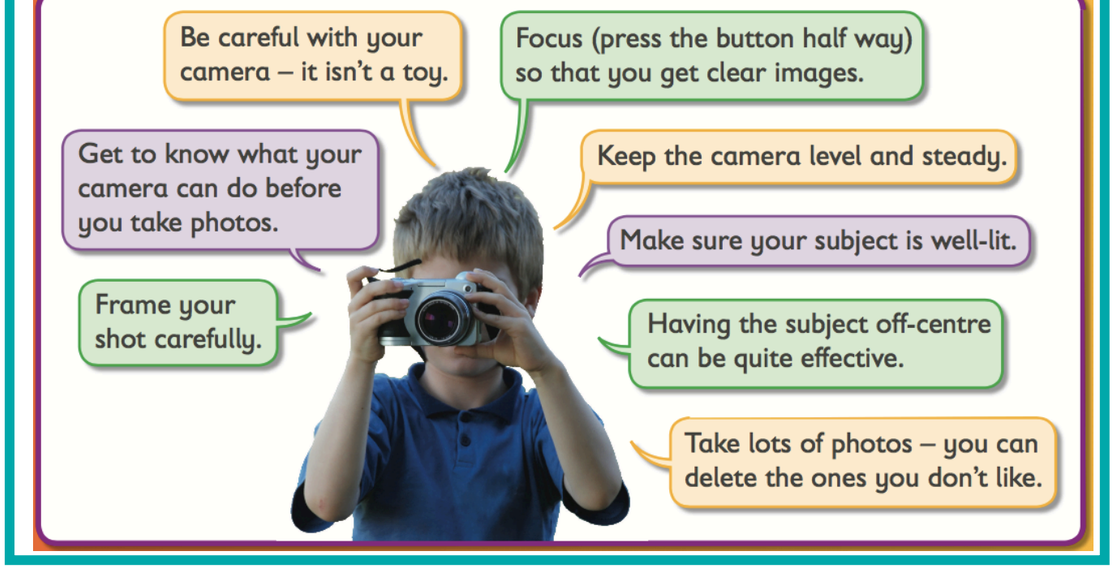
E-safety

- When you post an image online everyone can see it and you can't control what happens to it.
- You should only share photographs that are not private and are suitable to be shared online.
- If you share something online and think you should not have, tell a trusted adult.

Key learning points

- I know how to take meaningful photographs that have a purpose and are artistic.
- I know different devices used for taking images such as a camera, an iPad or a phone.
- I know how to use different devices to take photographs.
- I know how to use photo-editing software to make changes to my images.
- I can reflect on my images and decide which are the best to share with the class portfolio. I can give reasons for my choices.

Key learning points



Knowledge check

There are lots of different buttons you can use when taking photos on an ipad. What do all of these buttons do?

Open the camera app.

Takes the image

Swaps the camera
